INTRODUCTORY SECTION

November 26, 2025

Honorable Mayor Tonya Graham,
Ashland City Council, and
Citizens of the City of Ashland

I am pleased to provide the Annual Comprehensive Financial Report of the City of Ashland for the fiscal year ended June 30, 2025. This report is published annually as the official annual comprehensive financial report and complies with State statutes requiring the City of Ashland to issue an annual report on its financial position and activity, and that this report be audited by an independent firm of certified public accountants licensed by the State of Oregon to conduct municipal audits.

As management for the City, we are responsible for both the accuracy of the data, and the completeness and fairness of the presentation, including all related disclosures. The City operates under a system of accounting internal controls that are concerned with the safeguarding of assets and the reliability of financial records. The definition of accounting control assumes reasonable, but not absolute, assurance that the objectives expressed in it will be accomplished by the system. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits expected to be derived.

This report includes the independent auditor's opinion with respect to the City's financial statements. Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Ashland's MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE GOVERNMENT

The City, incorporated in 1874, is located in the southwest part of the state and currently has a land area of 6.65 square miles with a population of 21,579. It is a home-rule city and has all powers necessary or convenient for the conduct of its municipal affairs, including the power to levy a property tax on both real and personal property located within its boundaries. The City also has the power, by state statute, to extend its corporate limits by annexation within the state designated urban growth boundary, which is done periodically when deemed appropriate by the City Council.

Ashland operates under the Council-Manager form of government. Policymaking and legislative authority are vested in the Mayor and City Council. The governing Mayor and Council are responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the City Manager and the City Attorney. The City Council consists of a mayor and six-member Council. The Mayor, who presides at the Council meetings, is elected at-large for a four-year term. Six Council members are elected at-large

for four-year staggered terms with three Council members elected every two years. Other elected officials are the Municipal Judge and the five-member Parks Commission, which also serves as the Recreation Commission.

The City Manager is charged with general oversight of all operational and management functions, except for those under the Ashland Parks and Recreation Commission. The City Manager is responsible for the appointment or dismissal of department heads (Fire Chief, Police Chief, Public Works Director, Community Development Director, Finance Director, Electric Director, and Human Resources Director). The Mayor, with confirmation of the City Council, appoints the City Manager, the City Attorney and the City boards and commissions except for the Budget Committee, which, by state law, is appointed by the full Council. The City Manager is responsible for carrying out the policies and ordinances of the City Council and overseeing the day-to-day operations of the City. Assisting City Council are seven standing advisory boards and committees and various ad hoc committees, which include relevant City staff. Together, citizens and staff make a valuable contribution to the City of Ashland by working together on shared goals and vision.

The City provides a full range of services including police protection, fire protection, building inspection, planning services, economic development, social services, senior program, emergency medical services, electric, internet access, water, streets, storm drain, wastewater treatment, airport, cemetery, city band, and parks and recreation activities. The City prepares a biennial budget on the modified accrual basis in accordance with the State law and statutes.

LOCAL ECONOMY

Originally named Ashland Mills, Ashland has evolved from its logging roots to a city of vibrant tourism. Arts & culture play a significant role in the City with the many restaurants, galleries and retail stores that serve thousands of visitors who attend plays each year at the Oregon Shakespeare Festival and other key events throughout the year. Ashland has also become a destination for outdoor adventurers with the diverse mountain bike trails, back country roads for cycling, plenty of hiking trails and the Mt. Ashland Ski Resort a short drive away. The area has also grown popular among wine enthusiasts with many local wineries and tasting rooms for travelers and locals to enjoy.

Ashland is also the home of Southern Oregon University, a public university with over 5,000 students and is the largest employer in the City. The combination of a robust cultural center and college town has made Ashland a destination for tourists but also those who choose to settle here for its great schools and community core. The City's current economic base depends primarily on higher education and tourism, with a consistently high level of small home-occupation businesses and several niche manufacturing businesses. In addition, the U.S. Fish and Wildlife National Forensics Laboratory is in Ashland. It is the only crime lab in the world dedicated entirely to wildlife and serves both the national and international communities.

In fiscal year ending June 30, 2025, Ashland saw a 1.3% increase from the previous year

in combined Transient Lodging and Food & Beverage Taxes. The City continues to work on economic diversification while also bolstering Tourism through strategic investments in its Visitor and Convention Bureau.

Ashland continues to review and evaluate ways that ensures its long-term fiscal health and continuity through its economic development initiatives, facilities optimization planning, efficiencies in service delivery, and effective, consistent security through police and fire.

LONG-TERM FINANCIAL PLANNING

The City of Ashland actively engages in financial planning through its biennial budgetary process, and the creation of master plans for infrastructure improvements and expansions to roadways, water, sewer, stormwater, and parks.

Major financial decisions are made in the context of the six-year forecast. The financial planning process includes reviewing the needs for each operating fund as well as the City's capital project needs. The goal of the operating fund forecast is to assess the City's ability over the next six years to continue to effectively provide current service levels based on projected growth, meet goals set by Council, preserve the City's long term fiscal health, and to ensure financial reserve levels specified in the financial policies are maintained.

The City saw an increase in Enterprise Zones that received an exemption on their property taxes from \$43,072 to \$52,758. This typically happens due to specific circumstances such as new or remodeled property and equipment to encourage economic development. This has reduced the property tax the City will receive however will promote economic development in the future.

Capital project needs are based upon master plans, development agreements, input from applicable Commissions and Committees, and Council-directed improvements. The forecast serves as a tool to identify financial trends, potential shortfalls, and emerging issues so that the City can proactively address them.

MAJOR INITIATIVES

In addition to infrastructure, the City continues to make significant investments in the quality of Ashland livability through affordable housing, conservation initiatives, efforts to address houseless issues, and economic development and diversification.

During the fiscal year, major initiatives included the following:

Manage for Excellence

- Conducted a City-wide Comp and Class Assessment of all City positions
- Conducted a City-wide DEI assessment
- Received a clean audit

- Appointed a new Judge to the municipal court
- Appointed a new City Manager
- Appointed a new City Attorney
- Appointed a new Parks Director

Livable Community

- Electric Utility has achieved exceptional electric reliability
- Rehabilitation work done on the Community Center and Pioneer Hall
- Completed the Wastewater Treatment Plant Outfall Relocation project
- Completed Ashland Street rehabilitation and installation of protected bike lanes and pedestrian safety improvements
- Made significant progress addressing State Climate Friendly and Equitable Communities objectives by eliminating parking requirements for developments allowing for more infill and supporting walkable and bikeable infrastructure

Risk Reduction

- Installed new evacuation zone signs throughout the City
- Brought back the School Resource Officer in partnership with Ashland School District
- Established a new police satellite office on Ashland Street and increased the Centralized Area Patrol program
- Continued collaboration with the Ashland School District and Southern Oregon University around emergency management led by the City's Emergency Management Coordinator
- Grew the single role emergency medical service program to continue to address the high call volume in the ambulance service area for which the City is responsible
- Responded to mass tree die off through an extensive tree thinning project involving 450 acres of helicopter work to remove dead and dying trees surrounding the community

Economic Development

- Awarded local businesses over \$97,906 in beautification grants.
- Supported 22 local events with over \$99,050 in grant funding.
- Supported Travel Ashland with \$517,000 for destination marketing
- Support Oregon Shakespeare Festival with \$100,000 for marketing.

Affordability

- Awarded \$140,000 in Childcare grants
- Implemented an Accessory Dwelling Unit program for pre-approved plans free of charge to Ashland property owners
- Completed the Electric Utility Master Plan

Invest in the Future

- Rolled out a new website
- Rolled out new agenda management software
- Rolled out new records request software
- Rolled out a new parks and recreation registration software
- Transitioned court prosecution to an electronic system
- Transitioned to a paperless system for police reporting and records
- Conducted software upgrades for all major systems
- Rolled out a new online map repository for all public facing maps, digital apps and GIS data
- Updated evaluation maps to include codes for all county zones near the City
- Conducted five ballot initiatives involving numerous charter changes and bond funding for the water treatment plant

AWARDS AND ACKNOWLEDGMENTS

The City of Ashland has been a long-time recipient of The Government Finance Officers Association of the United States and Canada (GFOA) award for Achievement for Excellence in Financial Reporting and received the award for the thirty-seventh time for the fiscal year ended June 30, 2024. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City believes that the current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements.

In addition, the City received the GFOA Award for Distinguished Budget Presentation for its biennial 2023-2025 budget. To qualify for the award, the City's budget document was judged to be proficient in several categories, including policy documentation, as an operational guide, as a financial plan, and as a communication device.

Finally, it is a year-long, day-to-day, effort to ensure proper accounting and internal controls meet the standards set forth in the compilation of this report. The preparation of the Annual Comprehensive Financial Report could not have been accomplished without the dedicated efforts of the Finance Department's staff, and the cooperation of all City departments. I would also like to thank the Mayor and the City Council for their continued support in planning and conducting the financial operations of the City in a prudent, committed, and responsible manner.

Respectfully submitted,

Sabrina Cotta

Report of Independent Auditors

The Mayor and City Council
City of Ashland, Oregon

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon (the City), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of change in other post-employment benefits (OPEB), liability and related ratios – medical benefits, schedule of proportionate share of net OPEB (asset) liability and schedule of contributions, schedule of proportionate share of net pension liability and schedule of contributions, and budgetary comparisons be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Financial Section

We have applied certain limited procedures to the management's discussion and analysis, schedule of change in other post-employment benefits (OPEB), liability and related ratios – medical benefits, schedule of proportionate share of net OPEB (asset) liability and schedule of contributions, and schedule of proportionate share of net pension liability and schedule of contributions in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The budgetary comparison information described above is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, capital assets used in the operation of governmental funds by source, schedule of assets used in the operation of governmental funds by function and activity, and schedule of bond principal and bond interest transactions (collectively, supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Other Reporting Required by *Minimum Standards for Audits of Oregon Municipal Corporations*

In accordance with the *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated November 26, 2025, on our consideration of the City's compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance.

CITY OF ASHLAND, OREGON Management Discussion and Analysis For the year ended June 30, 2025

The Management Discussion and Analysis section of the City of Ashland's Annual Comprehensive Financial Report (ACFR) provides an overview of the City's financial activities for the year ending June 30, 2025. The purpose is to highlight significant financial issues, major financial activities and resulting changes in the financial position and economic factors affecting the City. Readers are encouraged to consider the information presented here in conjunction with the information furnished in the letter of transmittal, the City's financial statements and the accompanying notes following the financial information.

Financial Highlights

- Assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$180.9 million (net position). Of this amount, \$127.6 million is invested in capital assets, such as streets, land, and buildings. The remainder is primarily cash and investments, consisting of \$12.1 million that is non-expendable or restricted by legislation, capital projects, debt service, or donor intent.
- The City of Ashland's total net position increased by \$1.4 million over the prior year. The net position from Governmental Activities decreased by \$1.8 million while net position from Business-Type Activities increased by \$3.1 million.
- At the close of fiscal year 2025, the ending fund balances of the City's governmental funds totaled \$32.2 million, a decrease over fiscal year 2024.
- Government-wide outstanding debt was \$25.5 million at year end.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's Basic Financial Statements, which are comprised of three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements and 3) Notes to the Financial Statements. Other Supplementary Information, intended to furnish additional detail to support the Basic Financial Statements, is also provided in the ACFR at the end of the report.

Government-wide Financial Statements

The government-wide financial statements are designed to give the reader a picture of the financial condition and activities of the City as a whole. This broad overview is similar to the financial reporting of private-sector businesses. The government-wide financial statements have separate columns for governmental activities and business-type activities. Governmental activities of the City include general government, public safety, highway and streets and parks and recreation. The City's business-type activities are limited to water, wastewater, storm water, electric, and telecommunications. Governmental activities are primarily supported by taxes, charges for services, and grants, while business-type activities are self-supporting through user fees and charges.

Financial Section

The **Statement of Net Position** presents financial information on the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The **Statement of Activities** presents information designed to show how the City's net position changed during the year. The statement distinguishes revenue generated by specific functions from revenue provided by taxes and other sources not related to a specific function. The revenue generated by the specific functions (charges for services, grants, and contributions) is compared to the expenses for those functions to show the degree to which each function supports itself or relies on taxes and other general funding sources for support. All activity in this statement is reported on the accrual basis of accounting, requiring that revenues are reported when they are earned and expenses are reported when they are incurred, regardless of when cash is received or disbursed. Items such as (but not limited to) uncollected taxes, unpaid vendor invoices for goods or services received during the year and earned but unused vacation leave are included in the Statement of Activities as revenue and expenses even though no cash has changed hands.

The Government-wide Financial Statements can be found immediately following this section (the Management's Discussion and Analysis) of the ACFR.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts used to account for specific activities or meet certain objectives. Funds are often set up in accordance with special regulations, restrictions, or limitations. The City of Ashland, like other state and local governments, uses fund accounting to ensure and show compliance with finance-related legal requirements. The ACFR includes Fund Financial Statements in addition to the Government-wide Financial Statements. While the Government-wide Statements present the City's finances based on the type of activity, general government versus business-type, the Fund Financial Statements are presented by fund type such as the General Fund, special revenue funds, and proprietary funds. The City's funds are divided into two categories: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions as are reported as governmental activities in the Government-wide Financial Statements. These reports use a different "basis of accounting" than that used in Government-wide Financial Statements. The Governmental Fund Statements focus on near-term revenues/financial resources and expenditures while the Government-wide Financial Statements include both near-term and long-term revenues/financial resources and expenses. The information in the Governmental Fund Statements can be used to evaluate the City's near-term financing requirements and immediate fiscal health.

Comparing the Governmental Fund Statements with the Government-wide Statements can help the reader better understand the long-term impact of the City's current year financing decisions. To assist in this comparison, reconciliations between the governmental fund statements and the Government-wide Financial Statements are included with the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances.

The City of Ashland maintains fifteen individual governmental funds. The City has two major

Financial Section

governmental funds – the General Fund and the Street Fund – presented separately in the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances. The budgetary Parks General Fund, Reserve Fund, and Parks Equipment Fund are rolled into the General Fund for reporting purposes. The remaining ten governmental funds are combined in this statement into a single column labeled Other Governmental Funds. Individual fund data for each of the other governmental funds can be found in combining statements later in this report.

The City maintains budgetary control over its operating funds through the adoption of a biennial budget. Budgets are adopted at the fund level for all funds in accordance with state law. All budgetary comparison schedules are included following the other governmental funds' combining statements in this report.

Proprietary funds are used by governments to account for their business-type activities. Business-type activities provide specific goods or services to a group of customers that are paid for by fees charged to those customers. There is a direct relationship between the fees paid and the services received.

The City of Ashland has two types of proprietary funds, enterprise funds and internal service funds. Enterprise funds are used to account for goods and services provided to the community. Internal service funds are used to account for goods and services provided internally to various City departments. The same basis of accounting is used for proprietary funds in both the Government-wide Statements and the individual fund statements.

Enterprise funds of the City are used to report the same functions presented as business-type activities in the Government-wide Statements with the fund statements providing more detail than is reported in the Government-wide Statements. The enterprise fund statements provide separate information for the City's water, wastewater, stormwater, electric and telecommunications utilities.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its fleet of vehicles and insurance program. Internal service fund activities are predominantly governmental and have been included in the Governmental Activities' columns of the Government-wide Statement of Net Position and Statement of Activities.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is important for a full understanding of the data in the government-wide and fund financial statements. The Notes are located immediately following the Basic Financial Statements.

Other Information

In addition to the Basic Financial Statements and accompanying notes, this report also presents certain **Required Supplementary Information** concerning the City's progress in funding its obligation to provide pension benefits and other post-employment benefits. Required Supplementary Information may be found immediately following the Notes to the Financial Statements.

Financial Section

Combining Statements for other governmental funds and internal service funds are presented immediately following the Required Supplementary Information.

Government-wide Financial Analysis

Statement of Net Position

The Statement of Net Position can serve as a useful indicator of the City's financial position. The City of Ashland's total net position as of June 30, 2025, was \$180.9 million, which represents a \$1.4 million, or less than 1%, increase over fiscal year 2024. Following is a condensed version of the Government-wide Statement of Net Position (expressed in thousands of dollars):

	Governmental Activities		Business-type Activities		Total		Total Percentage Change 2025-2024
	2025	2024	2025	2024	2025	2024	
Current and other assets	\$ 38,792	\$ 45,637	\$ 54,410	\$ 52,762	\$ 93,201	\$ 98,399	-5.3%
OPEB asset	559	417	0	88	559	505	10.7%
Capital assets, net of accumulated depreciation	80,894	78,157	72,343	71,553	153,237	149,709	2.4%
Total assets	120,244	124,211	126,753	124,402	246,997	248,613	-0.6%
Total deferred outflows of resources	12,954	9,759	3,225	2,612	16,179	12,371	30.8%
Current liabilities	4,352	6,600	3,724	3,518	8,076	10,118	-20.2%
Long-term liabilities	42,279	40,576	24,611	25,307	66,890	65,883	1.5%
Total liabilities	46,632	47,176	28,335	28,825	74,967	76,001	-1.4%
Total deferred inflows of resources	5,858	4,322	1,413	1,095	7,271	5,418	
Net Position:							
Net investment in capital assets	72,327	68,235	55,246	54,138	127,573	122,373	4.2%
Restricted	8,844	7,910	3,748	3,456	12,592	11,366	10.8%
Unrestricted surplus (deficit)	-463	6,326	41,236	39,499	40,773	45,825	-11.0%
Total net position	\$ 80,709	\$ 82,472	\$ 100,229	\$ 97,093	\$ 180,938	\$ 179,565	0.8%

The largest component of the City's total net position (\$127.6 million, or 70.6%) is net investment in capital assets (i.e., land, buildings, machinery, lease equipment, vehicles, and infrastructure less any related outstanding debt that was used to acquire those assets). The City uses these capital assets to provide a variety of services to the community.

Accordingly, these assets are not available for future spending. Although investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The non-expendable and restricted component of the City's total net position (\$12.6 million, or 7.0%) represents resources that are subject to external restrictions on how they may be used. It includes resources that are restricted for capital projects (\$7.2 million), projects funded by grants (\$825,852), or debt (\$1.1 million). The remaining total net position balance of \$40.8 million, or 22.5%, is unrestricted and may be used to meet the City's ongoing obligations to the community and creditors.

Changes in Net Position

The Changes in Net Position table below illustrates the increase or decrease in the City's net position resulting from operating activities. Overall, the City's net position increased by \$1.4

Financial Section

million, or less than 1%, over the prior year.

A breakdown of increase in net position by governmental and business-type activities along with charts and graphs that illustrate revenues by source and compare program expenses to program revenues are shown on the next several pages.

Governmental Activities

The net position for governmental activities decreased by \$1.8 million, or 2.2%, in fiscal year 2025. Key changes from the prior year are as follows:

- Total assets and deferred outflows from governmental activities decreased by \$772,000 million, or .5%.
 - The internal services allocation, which is subtracted from assets, was \$1.3 million more than it was in fiscal year 2024. This is due to increasing costs for Personnel Services due to increased staffing and cost of living adjustments and Materials and Services.

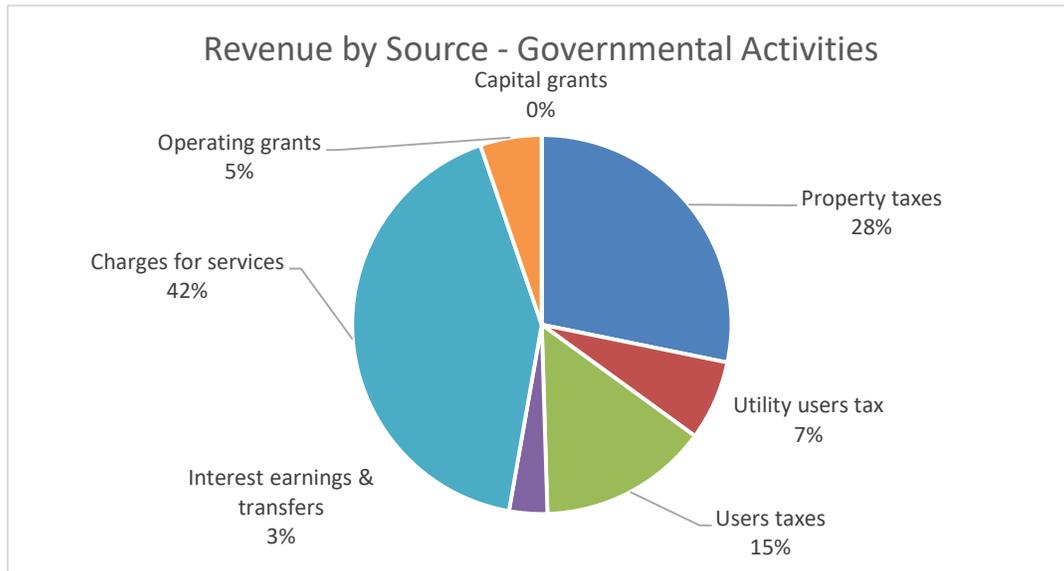

Financial Section

- Total receivables decreased by \$2.7 million, or 27%, primarily from grant receivables, which decreased by \$2.5 million, or 87.5%.
- Capital assets, net of depreciation and amortization, increased by \$2.7 million, or 7.5%. This is due to a new lease for a facility for the Finance Department and increases to our machinery and infrastructure.
- Total liabilities and deferred inflows from governmental activities increased by \$1 million, or 2%.
 - The City's pension liability increased by \$827,884, or 3% See Note IV C in the Notes to the Financial Statements for additional information.
 - Long-term debt from loans decreased by \$1.2 million, or 12.7%. See Note III E in the Notes to the Financial Statements for additional information.
 - Deferred inflows from pensions increased by \$1.8 million, or 50.1%. See Note IV C in the Notes to the Financial Statements for additional information.
- Total revenues decreased by \$5.8 million, or 10.4%.
 - Total tax revenue decreased by \$241,000, or 1%. Property tax revenue increased by \$131,000, or 1%, and tax revenue from other taxes decreased by \$255,000, or 3.5%. The Utility Users Tax is based on 25% of the Electric sales therefore the decrease in sales reflects in the tax received.
 - Interest revenue decreased by \$255,000, or 13.7%. Interest earnings were much higher than normal due to the market in the previous year and this year was less, but still historically higher than normal.
 - Program revenues decreased by \$5.4 million, or 18.6%, due to a \$1.4 million, or 6.5%, decrease in charges for services and a \$405,000, or 39% decrease in operating grants and contributions. The largest decrease, compared to the prior year, was in the Airport Fund for grants for Taxiway Rehabilitation.
- Total expenses increased by \$3.3 million, or 6.9% primarily due to a \$623,000, or 3%, increase in expenses for public safety, a \$1.7 million, or 69.5%, increase in highways and streets expenses, and a \$1.2 million, or 17.5%, increase in expenses for parks and recreation. The larger increases in expense for highways and streets and parks are attributable to capital projects.

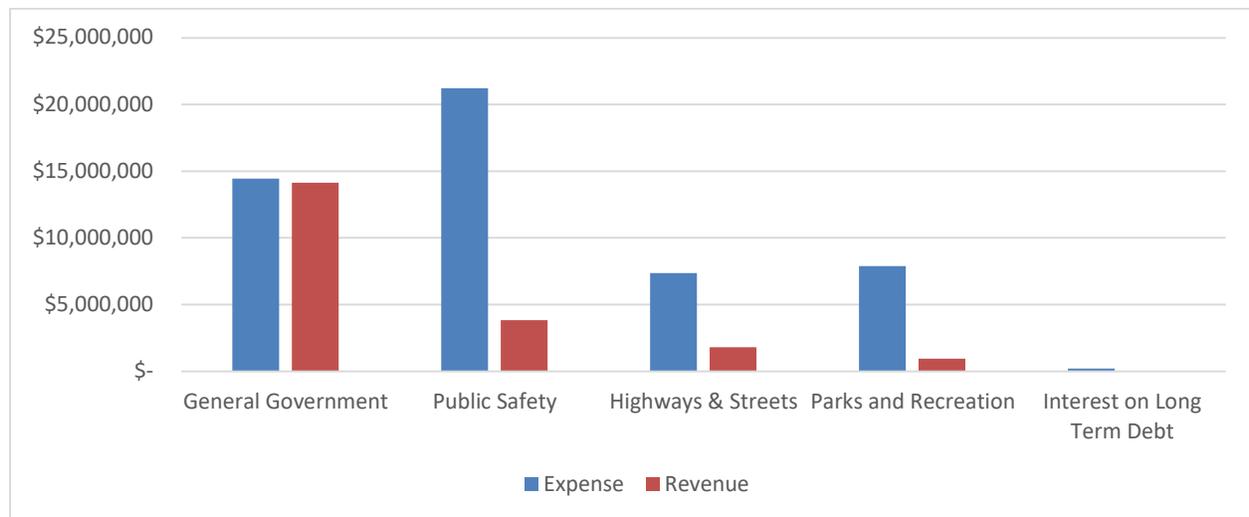

Charts showing revenues by source and comparing program revenues and expenditures for governmental activities are shown on the following page.

Financial Section

Revenues by Source – Governmental Activities

Program Expense vs Program Revenue – Governmental Activities

Business-type Activities

Business-type activities which are associated with the City’s utilities, had an increase in net position of \$3.1 million, or 3.2%, over the prior year, primarily due to a decrease in utility receivables, which had increased since the COVID pandemic. \$2.7 in receivables were reduced with the allowance for doubtful accounts. The allowance for doubtful accounts is an accounting estimate that reflects the portion of accounts receivable that a company expects will not be collected. This accounting practice helps provide a more accurate picture of the financial health by anticipating potential losses from uncollectible accounts before they occur. In fiscal year 2025, the City recognized a \$424,447 allowance for doubtful accounts across governmental funds and a \$2,288,626 across the business-type funds.

The net position of the **Water Fund** increased by \$3.3 million, or 8.4% over the prior fiscal year, due to net operating income of \$1.9 million, and interest earnings of \$878,000. This is primarily

Financial Section

due to an increase in the Capital assets within the fund due to increased infrastructure and a decrease in revenue debt payable due to debt service payments. Water rates did not change during the year.

The increase in the net position of the **Wastewater Fund** was a nominal \$284,000, or less than 1%, in fiscal year 2025. This is primarily due to the reconciliation of the SDC Wastewater Fund balance. Wastewater rates did not change during the year.

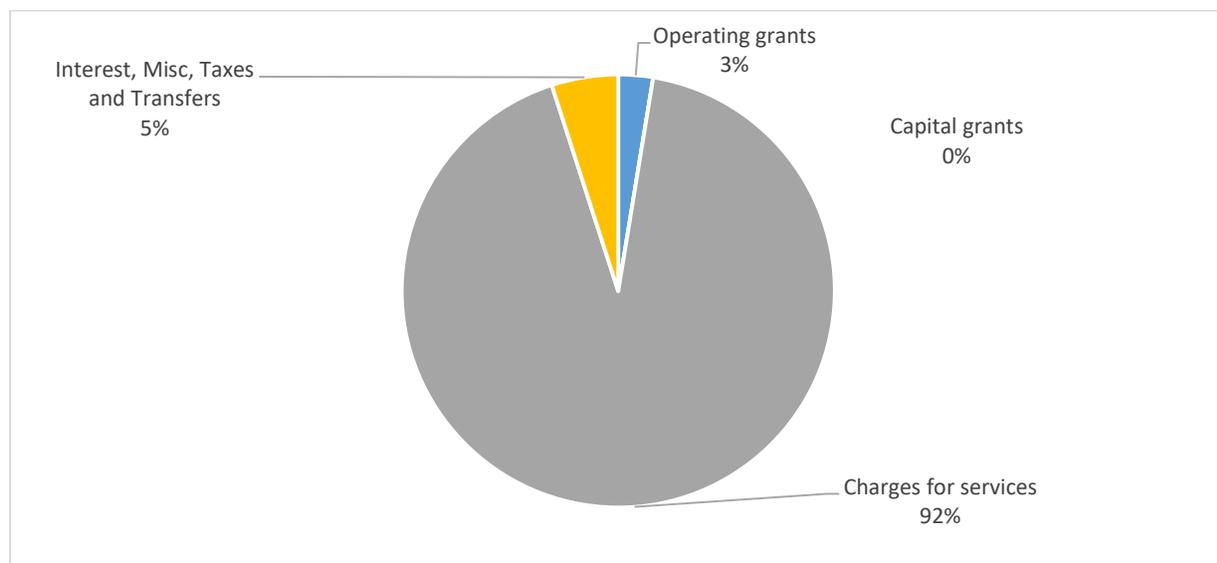

The net position of the **Stormwater Fund** increased by a nominal \$88,000, or 4.2%, during fiscal year 2025 primarily due to net operating income. Stormwater rates did not change during the year.

The net position of the **Electric Fund** decreased by \$1.7 million, or 13%, primarily due to a decrease in net operating income for the allowance of doubtful accounts. Electric rates did not change during the year.

The net position of the **Telecommunication Fund** decreased nominally during fiscal year 2025, by just \$60,000, or 2.2%. Telecommunication rates did not change during the year.

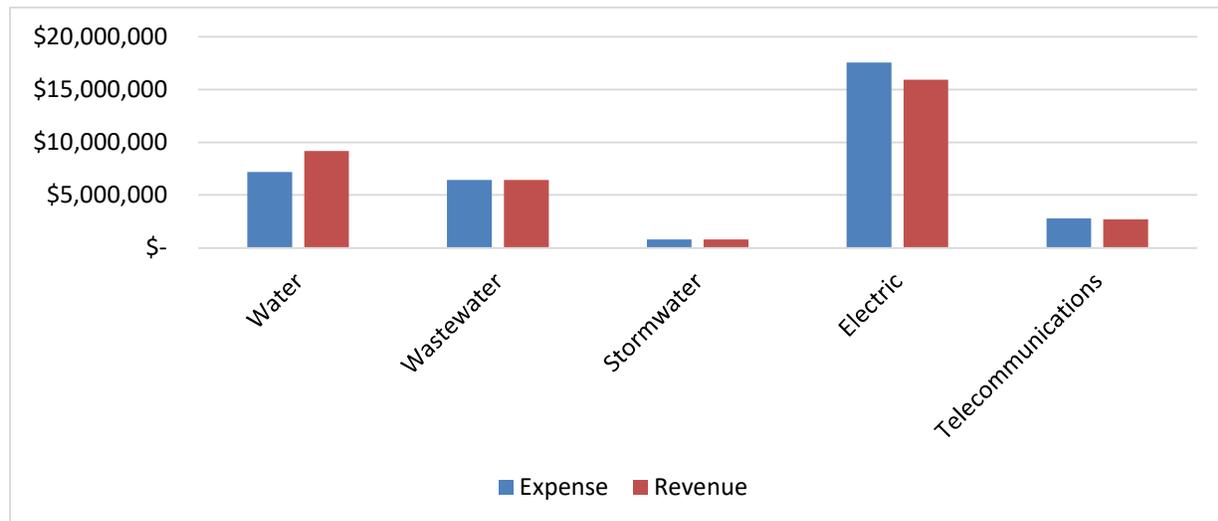

The net position of the **Electric Fund** decreased by \$1.7 million, or 13%, primarily due to a decrease in net operating income for the allowance of doubtful accounts. Electric rates did not change during the year.

Program Expense vs Program Revenue – Business-Type Activities

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure it can demonstrate compliance with finance-related legal requirements.

Governmental Funds

The purpose of the City's governmental funds is to report on near-term inflows, outflows, and balances of spendable resources. This information helps determine the City's future financial requirements. Fund balance is a good indicator of the City's resources available at year end.

At the end of the current year, the City's combined ending governmental fund balance was \$32.2 million, which represents a decrease of \$3 million or 8.5%, from the prior year. The decrease is due to the following:

- Less Intergovernmental Revenue for grants for the Airport Fund
- Less proceeds from Debt Issuance for the Street Fund for the Ashland Street Overlay project
- Less Capital Outlay due to the completion of the Taxiway Rehabilitation project.
- Less Capital Outlay due to the completion of the Ashland Street Overlay project.
- Less Capital Outlay due to a one-time expense for the purchase of property for a winter shelter.
- Less Transfers Out due to the dissolution of the Parks General Fund, Parks Equipment Fund, and the Health Benefits Fund.

Of the total ending fund balance, over \$8.5 million is nonexpendable or restricted and subject to an external legal constraint as follows:

- \$995,000 is held for the City's Cemetery Trust Fund
- \$826,000 is grant revenue that is restricted in use.
- \$41,000 is from asset seizures and is restricted for drug use intervention.

Financial Section

- \$923,000 is from lodging tax and is restricted to promote tourism.
- \$540,000 is from Opioid Remediation
- \$430,000 is restricted for airport activities.
- \$1.1 million is restricted for payment of debt.
- \$3.4 million is from system development charges and is restricted in use for capital improvements.
- \$22,000 is from donations restricted by donor intent.

The committed fund balance contains amounts that can be used for specific purposes determined by formal action of the City Council. Of the total ending fund balance, \$8.4 million is committed to street, park, housing, capital projects, public art and parking.

The unassigned balance of \$15.4 million in the General Fund consists of amounts not otherwise classified such as revenue stabilization, cost of living adjustment, and working capital. Technically, these funds are unrestricted, which means they are available for spending at the City's discretion. A significant portion of the unassigned balance is budgeted to fund one-time costs, carryovers, and contingencies.

Major Governmental Funds

The **General Fund** is the primary operating fund of the City, through with all receipts and payments of ordinary City operations are processed unless they are required to be accounted for in another fund. At the end of fiscal year 2025, the fund balance of the General Fund (including Reserve funds) was \$17.4 million, which represents a decrease over the prior year of \$2.7 million, or 13.5%.

General Fund revenues decreased by \$1.3 million, or 3.1%, over the prior year primarily due to the net effect of the following:

- Tax revenue increased by \$317,000, or 1.3%, mainly from property tax which is based on assessed value, which increased by \$131,000, or 1.0%. Franchise fees increased by \$300,000, or 7.6% due to a new fee assessed to the Ashland Fiber Network. These were offset by a decrease in electric users tax due to the allowance for doubtful utility accounts, which decreased by \$203,000, or 5.7%. The electric users tax is calculated as 25% of the electric sales.
- Permitting revenue is cyclical and varies from year to year. In fiscal year 2025 the City received \$438,000, or 26.6%, less in permitting related revenue than it did the prior year due to a decrease in building permit activity and the timing of housing starts and commercial development.
- The General Fund received \$201,000, or 26.8%, less in state shared revenues primarily due to a reduction in Liquor sales, \$373,000, or 37.6%, less in grant revenues for our Fire Department, and \$34,000 in Opioid Settlement Revenue in new revenue.
- High short-term interest rates and prudent investing remain higher than historical levels, however, have decreased \$309,000 or 26.7% over the prior year.

General Fund expenditures, excluding funds transfers to funds rolled up within the General Fund, increased by \$1.4 million, or 3.3%, over the prior year primarily due to the net effect of the following:

Financial Section

- An increase in the cost of salaries and benefits of \$2.8 million, or 10.6%, due to filling vacant positions, new positions, and cost of living increases in accordance with collective bargaining agreements.
- A \$1.9 million, or 13% decrease in the cost of materials and services primarily due to the Wildfire Division of the Fire Department reduction in contractual services for Wildfire Mitigation.

The **Street Fund** accounts for financial resources to be used for street-related operations and capital projects. At the end of fiscal year 2025, the fund balance of the Street Fund was \$4.2 million, a decrease of \$284,000, or 6.4%, over the prior year primarily due to the Proceeds from Debt Issuance in fiscal year 2024.

Street Fund operating revenues were \$78,000, or 1.3%, lower than the prior year primarily due to the net effect of the following:

- The City of Ashland collects a 5% tax from the sale of prepared food and nonalcoholic beverages. In fiscal year 2025, collection on the food and beverage tax was reported lower than expected levels and the City is in the process of auditing provider accounts. Revenue was \$127,000 or 5.4% lower than the prior year.

Street Fund expenditures were \$1.2 million, or 16.7 %, less than the prior year primarily due to a \$1.9 million, or 61.3%, decrease in street capital improvement projects with the completion of the Ashland Street Overlay.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Factors concerning the finances of the City's proprietary funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City of Ashland budgets on a biennial basis. The final adopted budget for the 2023-2025 biennium includes the following significant amendments to the originally adopted budget for the General Fund:

- \$1.2 million in grant revenues was added for an emergency shelter as well as the corresponding expenditure.
- \$295,000 in grant revenue was added for fire education as well as the corresponding expenditures.
- \$141,000 in charges for services revenue for wildfire mitigation was added as well as the corresponding expenditures.
- \$500,000 in interest revenue was added as well as \$500,000 in fire mediation expenditures.
- \$174,000 in grant revenue for fire education and air quality monitoring was added as well as the corresponding expenditures.
- \$159,000 in revenue from timber sales was added as well as a corresponding expenditure in fire mediation expenditures.

Financial Section

- \$315,000 in revenue from timber sales and parks grants were added as well as corresponding expenditures for mediation and capital improvement.
- \$3.3 million in revenue as operating transfers in from closing of the Parks General Fund, Parks Equipment Fund, and the Health Benefits Fund and operation of these moved into the General Fund.
- \$396,000 in revenue from the State of Oregon for opioid prevention, treatment and recovery strategies.
- \$76,000 in revenue for reimbursement for Fire Conflagration Assistance.
- \$38,000 in revenue for Parks grants for corresponding expenditures in capital improvement.
- \$1 million in transfers out to the Capital Improvement Fund for expenditures related to debt service and purchase of 2200 Ashland Street and for construction of Pioneer Hall and the Community Center.
- \$700,000 transfer from Contingency and increased expenditure appropriations for the Fire and Rescue Department due to an increase in personnel costs due to overtime and a need to replace the Fire Station Alerting System.

Capital Assets

The City of Ashland's investment in capital assets for its governmental and business-type activities at the end of fiscal year 2025 amounted to \$153.2 million (net of accumulated depreciation and amortization), which represents an increase of \$3.6 million, or 2.4%, over the prior year. Investment in capital assets includes land, art and construction in progress, which are not subject to depreciation. The other capital assets: leases, subscription-based information technology agreements, buildings and building improvements, improvements other than buildings, machinery and equipment, and infrastructure, are subject to depreciation and amortization.

Governmental capital assets (net of accumulated depreciation and amortization) totaled \$81 million at the end of fiscal year 2025, which represents an increase of \$2.9 million, or 3.7%, over the prior year. Business-type capital assets (net of accumulated depreciation and amortization) totaled \$72.3 million at the end of fiscal year 2025, which represents an increase of \$734,000, or 1%, over the prior year. In addition to the effects of depreciation, these increases are the result of improvements to buildings, contributed capital, and construction in progress. More information on the City's Capital Assets can be found in Note III C. Capital Assets in the Notes to the Financial Statements.

Financial Section

Long-term Debt

At the end of fiscal year 2025, the City of Ashland had total outstanding debt of \$25.5 million, which consists of \$2.2 million in general obligation bonds, \$20.8 million in pledged revenue debt, \$1.4 million in notes payable, and \$1.1 million in lease and SBITA liabilities, which constitute direct borrowings.

City of Ashland's Long Term Debt (in thousands)

	Governmental Activities		Business-type Activities		Total		Total Percentage Change 2025-2024
	2025	2024	2025	2024	2025	2024	
GO bonds payable	\$ 1,425	\$ 2,940	\$ 740	\$ 970	\$ 2,165	\$ 3,910	-44.63%

SBITA liability	486	610	-	-	486	610	N/A
Total long-term debt	\$ 8,480	\$ 9,713	\$ 16,990	\$ 17,329	\$ 25,469	\$ 27,043	-5.82%

No new General Obligation Debt was incurred in fiscal year 2025. The 2013 AFN Debt was paid off in fiscal year 2025 reducing the GO bonds payable. The City incurred \$1 million in new debt during the year, drawing down loan proceeds in the Street Fund for the Ashland Street Overlay Project and the Wastewater Fund for the Riparian Restoration project and Outfall Relocation project.

Lease liability increased primarily due to the Finance Department entering a five year lease for a building located at 2245 Ashland Street. See Note III E. Long-term Debt in the Notes to the Financial Statement for additional information on the City's debt.

Financial Section

Debt limitation. Oregon Revised Statutes provide a limit on non-self-supporting general obligation debt of 3% of the real market value of all taxable property within the City's boundaries. Based on the real market value of property in the City for fiscal year, the maximum general obligation debt authorized is \$158,532,778. The amount of outstanding City debt subject to this limitation is \$2,165,000 (under 3% of the maximum debt limitation).

Economic Factors and Next Biennium's Budget and Rates

The balanced 2025-2027 biennial budget of \$372.5 million reflects City staff's hard work to ensure the continuation of essential services at the service level the Community desires. This also moves forward essential projects of \$89.7 million to ensure Ashland continues to be a desirable place to live, work and play. This has been done with careful consideration of needs and priorities within our community to ensure the City maintains sound financial footing into the future.

The rising cost of personnel and materials and the uncertain economic outlook both locally and federally are an added challenge in the development of the biennium budget.

Preparation of the biennium budget was inherently more complex as the U.S. economy contended with various factors such as inflation, high interest rates, potential tariff impacts, supply chain issues, and fears of recession.

Traditionally the City had been successful in receiving both federal and state funding dollars. With uncertainty around the continuation of funding programs at both levels the City had to budget with the assumption that traditional grant programs the City may have been able to receive will no longer be available.

The City has seven, potentially eight, labor groups including unrepresented staff members. This level of complexity for a City this size adds a level of challenge when it comes to maintaining our workforce and sustaining the high quality of services the community has come to expect. Over the last biennium the City has worked diligently to fill vacant positions, reduce turnover and ensure we are a preferred employer in the Rogue Valley and Southern Oregon. The pressure of inflation and rising personnel costs are front of mind during on-going labor negotiations this year and the goal is to offer cost appropriate pay and benefits to current employees recognizing the constraints the City faces around resources. We must continue to carefully manage City resources to ensure we can retain our talented and skilled employees as well as provide essential services.

Deferred maintenance continues to be a pressing issue for the City. The City is facing significant and pressing needs to address deferred maintenance and make investments in its facilities. The development of the budget ensures we are maintaining sufficient fund balances in all funds moving forward and are on strong financial footing to place the City in a solid position to successfully explore funding strategies to address this in the future. Staff will be working diligently to provide City Council with a detailed assessment of all City facilities and space needs as well as a plan to move forward with addressing this need.

As we move forward into the future there are opportunities for innovation and collaboration for the City of Ashland. Through the next biennium the City will continue to evaluate how it provides service to the community, the level of service that can be provided in alignment with expected revenues and through a Strategic Planning process determine the priorities of both City Council and the community long-term. The Strategic Plan will assist with the development of a long-term financial roadmap for where to prioritize the City's resources. The community will continue to be

Financial Section

well served by its City organization though that service may look different over time as service levels are adjusted to meet revenue availability. The success of all that the City has accomplished and will accomplish is a direct reflection of the dedicated work of City employees, community volunteers and the City Council. The City remains committed to providing the resources necessary to foster resiliency, stimulate growth, and invest in the potential of our community. By making thoughtful decisions today, we can navigate successfully through uncertain times and look forward with optimism to the future.

Financial Contact

This financial report is designed to provide a general overview of the City of Ashland's finances for readers with an interest in the City's finances. Questions concerning any of the information provided in this report, or requests for additional information, may be addressed to the City's Finance Department 20 East Main, Ashland, Oregon, 97520 or finance@ashlandoregon.gov (541) 488-5300.

Basic Financial Statements

CITY OF ASHLAND, OREGON Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Position June 30, 2025

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances - governmental funds	\$ 32,241,514
--	---------------

The cost of capital assets (land, buildings, improvements, machinery and equipment, infrastructure, and construction in progress) is reported as an expenditure in governmental funds. The Statement of Net Position includes those capital assets among the assets of the City as a whole.

Net capital assets	73,893,593
--------------------	------------

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the Statement of Net Position.

Long-term liabilities	(7,363,552)
Lease and SBITA liability	(1,115,952)
Accrued interest on liabilities	(140,537)

The net pension assets (liability), and deferred inflows and outflows related to the Net Pension Liability is the difference between the total pension liability and the assets set aside to pay benefits earned to the past and current employees and beneficiaries.

	(22,679,091)
--	--------------

The OPEB assets (liability), and deferred inflows and outflows related to the OPEB Asset is the difference between the total OPEB liability and the assets set aside to pay benefits earned to the past and current employees and beneficiaries.

	(1,794,998)
--	-------------

Accrued compensated absences are not due and payable in the current period and, therefore, are not reported in the funds.

Accrued vacation and sick leave	(2,660,235)
---------------------------------	-------------

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

Unavailable revenue:	
Unavailable - property taxes	501,613
Unavailable - special assessments and all others	2,397,928

Internal Service Funds are used by the City to charge costs of insurance, risk management, and fleet management services to individual funds. Their assets and liabilities are included in the Statement of Net Position.

Internal Service Fund net position	<u>7,428,250</u>
Total net position	<u>\$ 80,708,534</u>

Basic Financial Statements

CITY OF ASHLAND, OREGON Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2025

Explanation of certain differences between the Net Changes in Fund Balance and the Government-wide Statement of Activities.

Changes in net fund balance	\$	(3,011,300)
-----------------------------	----	-------------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense.

Capital contribution		370,822
Capital outlay expenditures capitalized		4,347,424
Lease and SBITA outlay capitalized		376,131
Depreciation and amortization expense		(3,546,811)

The Pension Expense and the changes in the deferred inflows and outflows related to the changes in the Net Pension Assets (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits.		590,484
--	--	---------

The OPEB Expense and the changes in the deferred inflows and outflows related to the changes in the total OPEB Assets (Liability) from year to year due to changes in total OPEB liability and the fair value of OPEB plan net position available to pay benefits.		(64,950)
--	--	----------

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities (which is presented on the accrual basis of accounting) expenses and liabilities are reported, regardless of when financial resources are available. This adjustment combines the net changes in liability balances.

General obligation bonds and notes payable		1,609,933
Lease and SBITA		(376,131)
Compensated absences		(943,629)
Accrued interest		(105,666)

Revenues in the Statement of Activities that do not provide current financial recourses are not reported as revenues in the governmental funds.

Property taxes		44,957
Special assessments and other		241,599

Internal Service Funds are used by the City to charge costs of insurance, risk management and fleet management services to individual funds. Their net activity is included in the statement of activities.

Internal Service Fund change in net position		(1,296,059)
Change in net position	\$	(1,763,196)

NOTES TO THE BASIC FINANCIAL STATEMENTS

Notes to the Basic Financial Statements

CITY OF ASHLAND, OREGON Notes to the Basic Financial Statements For the year ended June 30, 2025

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Ashland, Oregon (City) is a municipal corporation operating under an amended charter adopted by the voters in 2020. The City Council (Council), composed of the Mayor and six council members, comprises the legislative branch of the government. Individual departments are under the direction of the City Manager, who is appointed by the Council. The accompanying financial statements present the City, an entity for which the City is considered to be financially accountable.

B. Government-wide and Fund Financial Statements

The presentation of financial information required by GASBS 34 for Basic Financial Statements and Supplementary Information are described below and in the Management's Discussion and Analysis located earlier in this document. The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Changes in Activities) report information on the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are reported when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. The budgetary basis of accounting is the same as Generally Accepted Accounting Principles (GAAP). Revenues are recognized as soon as they are both

Notes to the Basic Financial Statements

measurable and available. Revenues are considered to be available when they are collected within the period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are accruable so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

- The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Street Fund accounts for the resources and operating expenditures related to the maintenance, operation and construction of the City's streets and storm water collection infrastructure. While a substantial portion of revenues come from user fees, the primary source is state-shared highway funds.

The City reports the following major proprietary funds:

- The Water Fund accounts for the resources and expenses related to supply, treatment and distribution of water throughout the City. The primary source of revenue is user fees.
- The Wastewater Fund accounts for the resources and expenses related to collection and treatment of wastewater throughout the City. The primary source of revenue is user fees.
- The Stormwater Fund accounts for the resources and expenses related to collection and treatment of stormwater throughout the City. The primary source of revenue is user fees.
- The Electric Fund accounts for the resources and expenses related to distribution of electricity throughout the City. The primary source of revenue is user fees.
- The Telecommunications Fund accounts for the resources and expenses related to broadband and high-speed data transmission services throughout the City. The primary source of revenue is user fees.

Additionally, the City reports the following fund types:

- Special revenue funds account for proceeds of specific revenue sources that are restricted, committed or assigned to expenditure for specific purposes other than debt service or capital expenditure.
- Debt service funds account for financial resources that are restricted, committed, or assigned to expenditures for principal and interest related costs as well as the financial resources being accumulated for future debt service.
- Capital projects funds account for financial resources that are restricted, committed, or assigned to expenditures for capital outlays, except for those financed by proprietary funds.

Notes to the Basic Financial Statements

Revenues are derived primarily from property taxes and state gas tax apportionments which are designated for the construction of specific projects.

- Internal Service Funds account for insurance and fleet management services primarily provided to other departments or agencies of the City. The costs of the services provided are recovered by the charges to the department and/or outside agency receiving the service.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payment-in-lieu of taxes and other charges between the City's various utility funds and the other functions of the City. The enterprise funds which operate water, wastewater, and electric services are charged franchise fees by the General Fund. Franchise fees would be charged to any such operation under local ordinance, so these fees are recognized as direct operating expenses in those funds and as revenue to the General Fund rather than transfers. Payments for fiscal year 2025 include \$810,233 from the Water Fund, \$545,793 from the Wastewater Fund, \$1,804,185 from the Electric Fund and \$244,000 from the Telecommunications Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing, producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The enterprise and internal service funds are charges to customers for sales and services.

Where applicable, enterprise funds also recognize the portion of System Development Charges intended to recover the cost of connecting new customers to the system as operating revenue. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources to the limits of the policies and statutes governing them first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position

1. Cash and Cash Equivalents and Investments

The City's cash and cash equivalents are comprised of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and the State Treasurer's Investment Pool.

City investments are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of pool shares.

Notes to the Basic Financial Statements

2. Restricted Cash

The balance of restricted assets reported in the Statement of Net Position is as follows:

	Governmental Activities
Restricted Cash:	
Cemetery Trust Fund	<u>\$ 991,239</u>

3. Receivables and Payables

Activity between funds that are representative of lending and borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds.” Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not expendable available financial resources.

All trade and property taxes receivable are shown net of an allowance for uncollectible accounts. Trade accounts receivable in excess of 120 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied as of July 1 on property assessed as of the same date. The tax levy is due November 15, with an optional payment method of 1/3 due November 15, 1/3 due January 15, and 1/3 due March 15. Taxes paid in full November 15 receive a three percent (3%) discount. Property taxes are considered delinquent after the appropriate due date, at which time the applicable property is subject to lien, and penalties and interest are assessed.

Notes and contracts receivable are recorded at par. Interest assessed is recorded as revenue when the payment becomes due.

4. Inventories

Inventories are reported at moving average cost. Inventories are recorded as expenditures when consumed rather than when purchased.

5. Prepaid items and Advances

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements using the consumption method.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure (e.g., streets, roads, bridges, sidewalks and similar public domain items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined in the City’s capitalization policy as having a historic cost or market value in excess of \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated assets, donated works of art and similar items, and capital assets received in a service concession arrangement will be reported at acquisition value at the date of the donation.

Notes to the Basic Financial Statements

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

The City's policy states that any asset that is internal development will be capitalized if the actual or estimated cost is \$25,000 or more. The useful life of the assets will be determined by the developing department, the Finance Department and the City Manager.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives of the related assets:

Buildings and improvements	33 to 50 years
Electric power generation and distribution systems	40 to 70 years
Water, wastewater and storm water systems	15 to 50 years
Public domain infrastructure	15 to 25 years
Equipment	2 to 20 years

7. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. In 2025, GASB Statement 101, Compensated Absences, was implemented. GASB Statement 101 requires that a liability is recognized for vacation leave, sick leave and other types of paid time off. The measurement of this liability is determined by both historical usage patterns and is more likely than not to be used as time off or settled during or upon termination from employment, and employment policies. The City looks at leave usage from the previous 3 years to determine the liability.

8. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position.

Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bonds payable are reported net of the applicable bonding premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Net Position/Fund Balance

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- *Net investment in capital assets* consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets.

Notes to the Basic Financial Statements

Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

- *Restricted* net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- *Unrestricted* net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the City of Ashland will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City of Ashland's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called fund balance. The City's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes.

Non-spendable fund balance represents amounts that are not in a spendable form. The non-spendable fund balance represents perpetual care and prepaid items.

Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).

Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by City Council resolution.

Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. Currently, management does not have authority to assign fund balance.

Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

As previously mentioned, the City of Ashland has approved the following order of spending regarding fund balance categories: restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

To preserve a sound financial system and to provide a stable financial base, the governing body has

Notes to the Basic Financial Statements

adopted a minimum fund balance policy. Financial Management Policies were updated and approved in May 2023. The targets for fund balances are generally a function of estimated average annual expenditures of the prior three years and are intended to help maintain financial viability of each fund. They vary based on how susceptible a fund is to revenue fluctuations and based on the riskiness of the activities in each different fund.

10. Deferred Outflows/Inflow of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

11. Leases and Software Based Information Technology Arrangements

As a lessor, the City recognizes lease contracts or equivalents that have a term exceeding one year and the cumulative future *receipts* on the contract exceed \$25,000. The City uses the same interest rate it charges to lessee as the discount rate or that is implicit in the contract to the lessee. Short-term lease receipts and variable lease receipts not included in the measurement of the lease receivable are recognized as income when earned.

As a lessee, the City recognizes lease contracts or equivalents (including Subscription Based Information Technology Arrangements) that have a term exceeding one year and the cumulative future *payments* on the contract exceed \$25,000. The City uses a discount rate that is explicitly stated or implicit in the contract. When a readily determinable discount rate is not available, the discount rate is determined using the City's incremental borrowing rate at start of the lease for a similar asset type and term length to the contract. Short-term lease payments are expensed when incurred.

12. Accounting and Reporting Changes

New Pronouncements

During the fiscal year ended June 30, 2025, the following Governmental Accounting Standards (GASB) pronouncements were effective and implemented by the City:

GASB Statement No. 101, "Compensated Absences" This statement establishes new standards for accounting and financial reporting for compensated absences, which include vacation leave, sick leave and other types of paid time off. The City evaluated the impact of this implementation on beginning net position. No adjustment to beginning net position was required.

GASB Statement No. 102, "Certain Risk Disclosures" This statement establishes new standards for disclosing essential information about risks related to a governments vulnerabilities due to certain concentrations or constraints. No viable threats to assets or obligations were identified.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The City has adopted a biennial budget for all funds on a basis consistent with generally accepted accounting principles for governmental funds. The City Council resolution adopting the budget and authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are at the department (organizational unit) level for funds with more than one department and by total personal services, materials and services, capital outlay, debt service, transfers, and contingency for those funds with only one department or function. The detail budget document, however, is required to contain more specific, detailed information for the above-mentioned expenditure categories. The City budgets debt service principal and interest on a cash basis, it is reported on the statement of changes in revenues, expenses and changes in position.

Unexpected additional resources may be added to the budget through the use of a supplemental budget. The supplemental budget process requires hearings before the public, publications in newspapers, and approval by the City Council. Original and supplemental budgets may be modified only by the City Council through the use of appropriation transfers between the levels of control. In addition, Oregon Local Budget Law provides certain specific exceptions to the supplemental budget process to increase appropriations. Such transfers and increases require approval by the City Council by adoption of a resolution. Budget appropriation amounts shown in the financial statements include the original and revised budget appropriations as approved by the City Council. Appropriations are limited to a biennium budget period of 2023-2025; therefore, all spending authority of the City lapses at the end of the biennial period.

- In fiscal year 2024, Council approved eight resolutions that amended the budget: Resolutions 2023-21, 2023-22, 2023-23, 2023-26, 2024-01, 2024-08, 2024-10, and 2024-16.
- In fiscal year 2025, Council approved eight resolutions that amended the budget: Resolutions 2024-21, 2024-25, 2024-28, 2025-05, 2025-06, 2025-10, 2025-11 and 2025-16.

Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2025.

Deficit Fund Equity

Generally accepted accounting principles and Oregon state law requires fund disclosure of deficit fund balance/total net position. On June 30, 2025, no funds reported a deficit net position in the GAAP basis financial statements.

Notes to the Basic Financial Statements

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

	Total Primary Government
Petty cash	\$ 3,526
Deposits with financial institutions	1,008,415
Imprest Cash	120,000
Investments	78,199,775
	<u>\$ 79,331,716</u>
Governmental - unrestricted	\$ 78,340,477
Governmental - restricted: Cemetery Trust Fund	991,239
	<u>\$ 79,331,716</u>

1. Deposits

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

2. Credit Risk Deposits

There is a risk that, in the event of a bank failure, the City's deposits may not be returned. The City's deposit policy is in accordance with ORS 295. All deposits are collateralized with eligible securities in amounts determined by the Oregon State Treasury (OST). The OST's custodian, Federal Home Loan Bank of Des Moines, is the agent of the depository bank. The securities pledged are designated as subject to the Pledge Agreement between the Depository Bank, Custodian Bank and OST and are held for the benefit of the OST on behalf of the public depositors. The City's deposit policy requires that all deposits are covered by the Federal Deposit Insurance Corporation (FDIC), and/or are collateralized as required by and in compliance with ORS 295. The FDIC's standard insurance amount is \$250,000 per depositor, per insured bank, for each account ownership category.

3. Investments

Policies officially adopted by City Council allow the City to invest in: U.S. Treasury Obligations (bills, notes and bonds), U.S. Government Agency Securities and Instrumentalities of Government Sponsored Corporations, Banker's Acceptances, Certificates of Deposit (at commercial banks that have a branch in Oregon and Savings & Loan Associations that have a branch in Oregon),

State and Local Government Securities, Commercial Paper (A1, AA, P1), State of Oregon Investment Pool, and Repurchase Transactions.

Notes to the Basic Financial Statements

Cash and Investments Note

As of June 30, 2025, the fair value measurement at the measurement date, the City had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in months)	
		Less than 3	3-17
U.S. Treasury Note	\$ 19,343,671	\$ 6,988,080	\$ 12,355,591
U.S. Treasury Bill	9,809,524	-	9,809,524
State Treasurer's Investment Pool	49,046,581	49,046,581	-
	<u>\$ 78,199,775</u>	<u>\$ 56,034,661</u>	<u>\$ 22,165,114</u>

The Oregon Local Government Investment Pool (LGIP) is an open-ended, no-load diversified portfolio offered to any municipality, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any public funds. The Office of the State Treasurer (OST) manages the LGIP. The LGIP is commingled with other State funds in the Oregon Short-Term Fund (OSTF). The OSTF is not managed as a stable net asset value fund; therefore, the preservation of principal is not assured. The LGIP is not rated by a national rating service. Additional information about the OSTF can be obtained at www.oregon.gov/treasury. The weighted-average maturity of LGIP is less than one year. The fair value of the City's position in the pool is the same as the value of the pool shares.

Interest Rate Risk

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the City's investment policy allows only the purchase of investments that can be held to maturity. Investments cannot be made predicated upon selling the security prior to maturity.

The City limits investment maturities as follows:

Under 30 days	10% minimum
Under 90 days	25% minimum
Under 270 days	50% minimum
Under 1 year	75% minimum
Under 18 months	80% minimum
Under 3 years	100% minimum

Oregon Revised Statutes require that investments do not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB.

Credit Risk

Neither the Oregon Revised Statutes nor the City's investment policy limits investments as to credit rating for securities purchased from U.S. Government Agencies. As noted above, the LGIP is unrated.

Oregon Revised Statutes require Banker's Acceptances to be guaranteed by and carried on the books of, a qualified financial institution, eligible for discount by the Federal Reserve System, and issued by a qualified financial institution whose short-term letter of credit rating is rated in the highest category by one or more nationally recognized statistical rating organizations.

Notes to the Basic Financial Statements

Concentration of Credit Risk

To avoid incurring unreasonable risks inherent to over-investing in specific instruments or in individual financial institutions, the City's investment policy sets maximum limits on the percentage of the portfolio that can be invested in any one type of security. As of June 30, 2025, the City was in compliance with all percentage restrictions.

Oregon Revised Statutes require that no more than 25 percent of the monies of local government to be invested in Bankers Acceptances of any singular qualified financial institution. Amounts in the State Treasurer's LGIP are not required by law to be collateralized.

Per City policy, no more than the stated percentage of the overall portfolio will be invested in each of the following categories of securities:

U.S. Treasury Obligations	100%
U.S. Government Agency Securities & Instrumentalities of Government Sponsored Corp.	100%
Bankers' Acceptances	50%
Certificates of Deposit	35%
State and Local Government Securities	35%
Repurchase Transactions	25%
Commercial Paper (AA, A1, P1)	10%
State of Oregon Investment Pool Securities	100%

Fair Value of Investments

The City of Ashland measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles (GAAP). These guidelines recognize a three-tiered fair value hierarchy as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than those in Level 1; and
- Level 3: Unobservable inputs

Debt and equity securities classified as Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level 2 are valued using the following approaches: debt securities are normally valued based on price data obtained from observed transactions and market price quotations from broker dealers and/or pricing vendors; equity securities are valued using fair value per share for each fund. Certificates of deposit classified in Level 2 are valued using broker quotes that utilize observable market inputs. Securities classified as Level 3 have limited trade information, these securities are priced or using the last trade price or estimated using recent trade prices.

At June 30, 2025, the City of Ashland had the following recurring fair value measurements:

<u>Investments by Fair Value Level</u>	<u>June 30, 2025</u>	<u>Fair Value Measurement</u>			<u>Cost Measurement</u>
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
U.S. Treasury obligations	\$ 29,153,195	\$ 29,153,195	\$ -	\$ -	\$ -
State Treasurer's Investment Pool	49,046,581	49,046,581	-	-	49,046,581
	<u>\$ 78,199,775</u>	<u>\$ 78,199,775</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 49,046,581</u>

Notes to the Basic Financial Statements

B. Receivables

As of year-end, receivables for the City's individual major funds and non-major, internal service in aggregate, including the applicable allowances for uncollectable accounts, are as follows:

	Total Governmental Activities	Total Business-Type Activities	Accounts, Net
Current Receivable			
Property Tax	\$ 551,895	\$ -	\$ 551,895
Business Licenses	1,306	-	1,306
Ambulance Billing	1,972,411	-	1,972,411
Utility Receivables, net	1,238,583	3,069,149	4,307,732
Grant Receivables	365,716	13,264	378,979
Misc. Receivables	2,094,768	772,845	2,867,613
Transient Lodging Receivables	1,037,294	-	1,037,294
Total current	7,261,974	3,855,258	11,117,231
Long-Term Receivable			
Rehabilitation Loans	54,452	-	54,452
Special Assessments	-	-	-
Conservation Loans	-	53,587	53,587
Notes Receivable	6,142	-	6,142
SDC receivable	40,829	-	40,829
Total long-term	101,424	53,587	155,011
Total	\$ 7,363,398	\$ 3,908,845	\$ 11,272,242

In fiscal year 2025, the City recognized a \$424,447 allowance for doubtful accounts across governmental funds and a \$2,288,626 across the business-type funds.

Governmental funds report unearned and unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable revenue and unearned revenue reported in all funds were as shown on the table below as follows:

Governmental Activities:	General Fund	Other Governmental Funds	Total Governmental Funds
Property Taxes	\$ 494,098	\$ 7,515	\$ 501,613
Leases	-	172,529	172,529
Deferred Rehab and SDC's	-	95,281	95,281
Business Licenses	180,527	-	180,527
Transient Lodging Tax	1,037,294	-	1,037,294
Ambulance Services	1,084,826	-	1,084,826
Total Unearned Revenue	\$ 2,796,745	\$ 275,325	\$ 3,072,070

Notes to the Basic Financial Statements

C. Capital Assets

Capital asset activity for the year ended June 30, 2025, was as follows:

	Balance June 30, 2024	Additions and Reclasses	Retirements and Reclasses	Transfers	Balance June 30, 2025
Governmental Activities:

Business-type activities capital assets, net	\$ 71,557,617	\$ 732,017	\$ -	\$ 72,289,634

Depreciation and amortization expense for the governmental activities as charged to functions/programs of the primary government is as follows:

General government	\$ 2,366,100
Public safety	398,961
Highways and streets	1,022,895
Parks and Rec	1,224,668
Total	\$ 5,012,624

Depreciation expense for the business type activities as charged to functions/programs of the primary government is as follows:

Water Fund	\$ 696,226
Wastewater Fund	1,132,250
Stormwater Fund	51,933
Electric Fund	337,982
Telecommunication Fund	54,860
Total	\$ 2,273,251

Notes to the Basic Financial Statements

Construction Commitments

The City has active construction projects as of June 30, 2025. The projects include construction of various infrastructure improvements and additions to the City’s parks, transportation, storm water, water, wastewater, and telecommunications systems. The City had approximately \$5.9 million remaining in construction contract commitments under construction contracts as of June 30, 2025.

D. Interfund Receivable, Payable and Transfers

Internal transfers are budgeted and recorded to show legal and operational commitments between funds such as cost sharing or debt service. Interfund loans are used to assure adequate fund balances in funds where operations do not currently (on a short-term basis) generate enough support through revenues. Interfund transfer activity in fiscal year 2025 was as follows:

Transfer From	Transfer to Governmental Funds		
	General Fund	Nonmajor Governmental	Total
Governmental Funds:			
General Fund	\$ -	\$ 1,346,243	\$ 1,346,243
Nonmajor Funds	469,656	185,643	655,299
Health Benefits Fund	2,225,546	-	2,225,546
Business-type Activities:			
Water Fund	50,000	-	50,000
Total	\$ 2,745,202	\$ 1,531,886	\$ 4,277,088

E. Long-term Debt

1. Unbonded Long-term Debt (Notes and Contracts)

The City has five loan agreements for financing:

- Garfield Park – In 2016 the City borrowed \$870,000 for upgrade for the water park within Garfield Park. The debt is funded with food and beverage tax.
- Biscoe School – In 2018 the City agreed to purchase Biscoe School from the Ashland School District for \$1,540,000 at zero percent interest. The debt is funded by building lease payments.
- Briscoe Park – In 2018 the City agreed to purchase Biscoe Park from the Ashland School District for \$500,000 at zero percent interest. The debt is funded with food and beverage tax.
- Emergency Shelter – The City purchased a shelter as part of a state plan to assist unhoused individuals and facilitate their transition to permanent housing. The state provided \$1 million in funding to purchase the shelter, and the City entered a \$600,000 loan at 3.75% interest to finance the remaining cost.

Notes to the Basic Financial Statements

- The B24001 Street loan was issued for the Ashland Street Overlay project. The estimated loan amount was \$4,839,751. Of that, \$4,028,789 was drawn down in fiscal year 2024, the first year of the project. In fiscal year 2025, another \$536,427 was drawn down for a total drawdown of \$4,565,216. This debt is backed by food and beverage tax, transportation utility fees, and state shared revenue from gasoline tax. No loan payments will be made until the project is complete.

Loan agreements outstanding at year end are as follows:

<u>Purpose</u>	<u>Activity</u>	<u>Original Amount</u>	<u>Interest Rates</u>	<u>Amount Outstanding</u>
Upgrade to Garfield Water Park	Government	\$ 870,000	2.12%	\$ 48,000
Purchase of Briscoe School Buidling	Government	1,540,000	0.00%	660,000
Purchase of Briscoe School Yard	Government	500,000	0.00%	100,000
Purchase of Homeless Shelter	Government	600,000	3.75%	565,336
<i>OBDD B24001 - Streets</i>	<i>Government</i>	<i>4,565,216</i>	<i>3.05%</i>	<i>4,565,216</i>
				<u>\$ 5,938,552</u>

Estimated loan requirement to maturity are as follows:

<u>Year ending June 30,</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2026	\$ 229,861	\$ 21,426
2027	182,695	20,083
2028	133,561	19,217
2029	134,460	18,318
2030	135,393	17,385
2031-2035	252,257	71,632
2036-2040	171,545	42,345
2041-2045	133,563	9,030
Undetermined	4,565,216	-
	<u>\$ 5,938,552</u>	<u>\$ 219,436</u>

2. General Obligation Bonds

The City issues general obligation bonds (GO) to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities over the previous fiscal years. No new general obligation debt was issued in fiscal year 2025.

Notes to the Basic Financial Statements

The following schedule shows the debt service requirements for GO bonds as of June 30, 2025:

<u>Purpose</u>	<u>Activity</u>	<u>Original Amount</u>	<u>Interest Rates</u>	<u>Amount Outstanding</u>
2011 Fire station	Government activities	\$ 2,960,000	2.0-4.00%	\$ 1,080,000
2013 GO Bonds New Construction	Government activities	\$ 1,520,000	2-2.5%	345,000
2013 GO Bonds New Construction	Business-type activities	\$ 3,245,000	2-2.5%	740,000
				<u>\$ 2,165,000</u>

Government Activities:

- The residents of Ashland authorized by vote in May 2011 \$2,960,000 in debt for the construction of Fire Station #2. This debt is being paid by property tax.
- In 2013 a new debt of \$ 4,765,000 as full faith and credit bonds was issued for 15 years; this debt was split between Governmental and Business-type activities. The Street Fund & Parks operations received \$1,520,000 of the total. This debt is paid by user fees and food and beverage tax.

Business-Type Activities:

- In 2013, a new debt of \$ 4,765,000 as Full Faith and credit bonds was issued for 15 years, this debt was split between Governmental and Business-type activities. The Water, Wastewater and Stormwater funds received \$3,245,000 for construction projects. This debt is paid by user fees.

Future maturities of GO bond principal and interest as of June 30, 2025, are as follows:

<u>Year Ending June 30,</u>	<u>2011 GO Bonds Fire Station #2</u>		<u>2013 GO Bonds New Construction</u>		<u>Total</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2026	\$ 165,000	\$ 40,338	\$ 350,000	\$ 21,863	\$ 515,000	\$ 62,201
2027	160,000	34,975	360,000	13,650	520,000	48,625
2028	165,000	29,375	375,000	4,688	540,000	34,063
2029	190,000	23,600	-	-	190,000	23,600
2030	195,000	16,000	-	-	195,000	16,000
2031	205,000	8,200	-	-	205,000	8,200
	<u>\$ 1,080,000</u>	<u>\$ 152,488</u>	<u>\$ 1,085,000</u>	<u>\$ 40,201</u>	<u>\$ 2,165,000</u>	<u>\$ 192,689</u>

Notes to the Basic Financial Statements

3. Pledged Revenue Debt

The City also issues debt on which it pledges income derived from the acquired or constructed assets to pay debt service.

<u>Loan Agreement</u>	<u>Activity</u>	<u>Original Amount</u>	<u>Interest Rates</u>	<u>Amount Outstanding</u>
IFA S14005 - Water	Business-type activities	3,515,200	1.00%	\$ 2,942,491
DEQ R11751 - Wastewater	Business-type activities	1,645,280	1.00%	937,080
Medford Water Commission	Business-type activities	2,358,076	3.42%	1,318,725

DEQ R11754 - Wastewater	Business-type activities		1.00%	2,814,646
DEQ R11755 - Wastewater	Business-type activities		1.00%	4,793,225
				<u>\$ 16,249,800</u>

- The IFA #S14005 loan was for three projects: Talent/Ashland/Phoenix Water Intertie System (TAP), the Terrace St Pump Station and the Park Estates Pump Station. This loan received \$950,000 in principal forgiveness, which was recognized in 2019. Water revenue is pledged for debt payments.
- The DEQ #R11751 loan was for the Wastewater Treatment Membrane System upgrade in the amount of \$1,645,280. Wastewater revenue is pledged for debt payments.
- The Medford Water Commission loan was for the City's portion of receiving services for TAP. This debt is being paid by revenue from system development charges.
- The IFA #S16021 loan was for the design phase of the City's new Water Treatment Plant. This loan received \$975,101 in principal forgiveness, which was recognized in fiscal year 2024. Water revenue is pledge for debt payments and the first payment was made is fiscal year 2025.
- Loan DEQ #R11754 is for the Wastewater Riparian Restoration project. This loan was increased in fiscal year 2024 to \$3,616,900. To date, the City has received \$2,814,646 as a drawdown. No loan payments will be made until the project is complete.
- Loan DEQ #R11755 is for the Wastewater Outfall Relocation project in the amount of \$4,800,000. To date, \$4,793,225 has been received as a drawdown. No loan payments will be made until the project is complete.

For the three loans that are not currently being paid, the City of Ashland has signed agreements in the amount of \$13,256,651 as of June 30, 2025. Of that amount, the City drew down a total of \$1,042,229 in fiscal year 2025.

<u>Loan Agreement</u>	<u>Activity</u>	<u>Signed Agreement</u>	<u>Balance 30-Jun-24</u>	<u>Drawdowns</u>	<u>Reclass</u>	<u>Balance 30-Jun-25</u>

Notes to the Basic Financial Statements

Estimated pledged revenue debt service requirements to maturity are as follows:

Year Ending June 30,	Principal	Interest
2026	\$ 810,082	\$ 288,548
2027	933,293	176,219
2028	945,666	162,717
2029	958,268	148,974
2030	971,105	137,080
2031-2035	4,417,095	459,781
2036-2040	1,856,768	228,892
2041-2045	1,951,628	101,838
2046-2050	591,247	15,780
Undetermined	2,814,646	-
	<u>\$ 16,249,799</u>	<u>\$ 1,719,827</u>

Moody's Investors Services assigned an "Aa3" rating to both the Tax-Exempt Bonds and the Taxable Bonds.

4. Lease and SBITA Liabilities

As of June 30, 2025, the principal and interest requirements for lease and SBITA liabilities to maturity are as follows:

Year Ending June 30,	Lease Liability		SBITA Liability	
	Principal	Interest	Principal	Interest
2026	\$ 185,136	\$ 10,474	\$ 110,517	\$ 15,573
2027	173,690	7,011	121,231	10,982
2028	167,635	3,299	132,679	5,957
2029	74,810	1,811	121,639	469
2030	16,746	1,039	-	-
2031-2033	11,869	224		
	<u>\$ 629,886</u>	<u>\$ 23,858</u>	<u>\$ 486,066</u>	<u>\$ 32,981</u>

Notes to the Basic Financial Statements

5. Changes in Long-term Liabilities

Long-term liability activity for the year ended June 30, 2025, was as follows:

	Beginning Balance	Additions and Adjustments	Reductions	Ending Balance	Due within One Year
Governmental Activities					
General obligation bonds	\$ 2,940,000	\$ -	\$ 1,515,000	\$ 1,425,000	\$ 275,000
Contract Payable	4,028,789	536,427	-	4,565,216	-
Notes and Contracts	1,649,393	-	276,058	1,373,336	229,861
Lease liability	485,290	376,131	231,534	629,886	185,136
SBITA liability	609,827	-	123,761	486,066	110,517
Total Government Activities	<u>\$ 9,713,299</u>	<u>\$ 912,558</u>	<u>\$ 2,146,353</u>	<u>\$ 8,479,503</u>	<u>\$ 800,515</u>
Business-type Activities					
General obligation	\$ 970,000	\$ -	\$ 230,000	\$ 740,000	\$ 240,000
Pledged revenue debt	16,359,393	505,802	615,395	16,249,800	810,082
Total Business-type Activities	<u>\$ 17,329,393</u>	<u>\$ 505,802</u>	<u>\$ 845,395</u>	<u>\$ 16,989,800</u>	<u>\$ 1,050,082</u>

The “Due within One Year” balance is net of premiums and discounts.

F. Compensated Absences

Compensated Absences increased approximately \$1.1 million in fiscal year 2025. This net increase was due to GASB Statement 101 and the new methodology which includes an approximation of sick leave earned and expected to be taken in future years, whereas in the past, it has been mainly vacation leave and comp leave earned.

The balances of the compensated absences payable in the governmental and business-type are as follows:

	Beginning Balance	Net Changes	Ending Balance	Due within a Year
Governmental Activities:	\$ 1,745,339	\$ 956,203	\$ 2,701,541	\$ 675,385
Business-type Activities:	450,296	142,716	593,012	148,253
Total compensated absences payable	<u>\$ 2,195,634</u>	<u>1,098,919</u>	<u>3,294,553</u>	<u>823,638</u>

IV. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The City purchases insurance policies from commercial carriers and pays annual premiums for the following coverages: General Liability in the amount of \$5,000,000 per occurrence and \$15,000,000 in the aggregate; Auto Liability in the amount of \$5,000,000 per occurrence; Commercial Property, including buildings and contents of up to \$600,000,000 (subject to all loss or damages covered by the Trust in any one year) which includes real, personal, and inland marine property coverage as per current schedule; Cyber Liability coverage up to \$100,000; Airport liability in the amount of \$4,000,000; Flood Insurance coverage up to \$10,000,000; Earthquake Insurance coverage up to \$10,000,000; and Pollution Liability in the amount of \$1,000,000 per occurrence and \$2,000,000 in the aggregate. The City carries Crime and Employee Dishonesty coverage for claims up to \$1,000,000 and public official bonds in the amount of \$50,000 covering the Finance Director and City Manager. Additionally, the City carries a \$1,000,000 policy for workers' compensation. Employee health, life and disability coverages are also maintained.

There has been no significant reduction in insurance coverage from the prior year. Settled claims from these risks have not exceeded commercial insurance limits in any of the past three fiscal years. An Insurance Division in the City's Internal Service Fund accounts for the City's risk management activities. All funds of the City participate in the Insurance Division. Amounts payable to the Insurance Division are based on cost estimates necessary to pay premiums, and if applicable, prior and current year claims and to establish a reserve for catastrophic losses. Workers' compensation is insured under a premium plan where premiums are accrued based on payroll and an experience mod rating.

Notes to the Basic Financial Statements

B. Other Post Employment Benefits

The City’s aggregate Other Post Employment Benefit (OPEB) related assets, deferred outflows of resources, liabilities, deferred inflows of resources, and expenses for the year ended June 30, 2025, for all OPEB plans are as follows:

	City Plan	PERS RHIA	Total
Net OPEB asset	\$ -	558,792	\$ 558,792
Subtotal of deferred outflows of Resources	\$ 964,423	20,955	\$ 985,378
Total OPEB liability	\$ 4,003,522	-	\$ 4,003,522
Subtotal of deferred inflows	\$ 414,103	18,945	\$ 433,048
OPEB expense (income)	\$ 400,668	(25,362)	\$ 375,306

City Health Insurance Subsidy

The post-employment Health Insurance Subsidy is administrated by the City of Ashland. The City has elected to use the project Unit Credit cost method.

Plan Description - The City operates a single-employer retiree benefit plan that provides post-employment health, dental, vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through collective bargaining agreements. The City’s post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees.

The difference between retiree claims cost (which is generally higher in comparison to all plan members because of the effect of age) and the amount of retiree healthcare premiums represents the City’s implicit employer contribution.

The City did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

Funding Policy – The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the City to fund these benefits in advance.

Annual OPEB Cost and Total OPEB Liability - The City's annual Other Post Employment Benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer and an amount actuarially determined in accordance with the parameters of GASB 75. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Actuarial Methods and Assumptions – Under GASB 75, unfunded plans must use a discount rate that reflects a 20-year tax-exempt municipal bond yield or index rate. The assumptions used reflect the Bond Buyer 20-Year General Obligation Bond Index. The discount rate in effect for June 30, 2025, reporting date is 3.93%. In future years, the medical and vision cost trend assumes increases ranging from 5%

Notes to the Basic Financial Statements

to 7%. The demographic assumptions, such as mortality rates, disability incidence rates, retirement rates and withdrawal rates, are the same as those used by Oregon PERS for cities.

Changes in total Net OPEB Liability/(Asset):

Total OPEB Liability/(Assets) June 30, 2024	\$ 3,685,572
<u>Changes:</u>	
Service Cost	138,111
Interest on total OPEB liability	135,183
Changes to benefit term	-
Differences between expected and actual experience	-
Changes of economic/demographic gains	27,675
Changes of assumptions or other input	259,221
Benefit Payments	<u>(242,240)</u>
Net change for the year	317,950
Total OPEB Liability/(Assets), June 30, 2025	<u><u>\$ 4,003,522</u></u>

As of June 30, 2025, the City reported deferred inflows and outflows of resources related to OPEB from the following sources:

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Difference between expected and actual experience	\$ 358,618	\$ -
Changes in assumptions	316,436	(414,103)
Subtotal - Amortized Deferrals (below)	<u>675,054</u>	<u>(414,103)</u>
City Contributions subsequent to measurement date	<u>289,369</u>	<u>-</u>
Net Deferred outflow (inflow) of resources	<u><u>\$ 964,423</u></u>	<u><u>\$ (414,102)</u></u>

Contributions subsequent to the measurement date will be used to reduce the total OPEB liability on June 30, 2026.

Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expenses as follows:

<u>Year ending June 30,</u>	<u>Amount</u>
2026	\$ 128,656
2027	54,954
2028	16,154
2029	(1,352)
2030	(3,351)
Thereafter	<u>65,890</u>
Total	<u><u>\$ 260,951</u></u>

Notes to the Basic Financial Statements

The following presents the total OPEB Liability/(Assets) of the City, as well as what the City's total OPEB Liability/(Assets) would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher.

	1% Decrease 2.93%	Discounted Rate 3.93%	1% Increase 4.93%
City's Total OPEB Liability	\$ 4,358,279	\$ 4,003,522	\$ 3,687,431

The following presents the total OPEB Liability/(Asset) of the City, as well as what the City's total OPEB Liability/(Assets) would be if it were calculated using health care cost trend rates that are one-percentage-point lower or one percent-point higher than the current health care trend rates.

	Healthcare Cost Trend Rates (5%)	Healthcare Cost Trend Rates (6%)	Healthcare Cost Trend Rates (7%)
City's proportionate share of the Total OPEB Liability	\$ 3,744,925	\$ 4,003,522	\$ 4,305,005

Retirement Health Insurance Account

Plan Description:

As a member of Oregon Public Employees Retirement System (OPERS) the City contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy:

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a

Notes to the Basic Financial Statements

deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating cities are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the City currently contributes 0.05 of annual covered OPERS payroll and nothing for OPSRP payroll under a contractual requirement. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 74. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The City was not required to contribute to RHIA during year ended June 30, 2025. As of the measurement date of June 30, 2024, the City's proportion was 0.14 percent.

As of June 30, 2025, the City reported deferred inflows and outflows of resources related to RHIA from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	\$ (10,929)
Changes in assumptions	-	(7,068)
Net difference between projected and actual earnings on OPEB plan investments	15,778	-
Net changes in proportionate share	<u>5,177</u>	<u>(948)</u>
Net Deferred outflow (inflow) of resources	<u>\$ 20,955</u>	<u>\$ (18,945)</u>

Amounts reported as deferred outflows or inflow of resources related to pension will be recognized in pension expense as follows:

Year ending June 30,	Amount
2026	(27,360)
2027	19,012
2028	8,536
2029	1,822
Total	<u>\$ 2,010</u>

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.90 percent) or one-percentage-point higher (7.90 percent) than the current rate.

	Decrease (5.9%)	Rate (6.9%)	Increase (7.9%)
City's proportionate share of the net RHIA liability (asset)	<u>\$ (517,272)</u>	<u>\$ (558,792)</u>	<u>\$ (594,542)</u>

Notes to the Basic Financial Statements

C. Employee Retirement System and Pension Plan

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Annual Comprehensive Financial Report which can be found at <https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-information.aspx>

a. **PERS Pension (Chapter 238).** The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.

i. **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

ii. **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:

- member was employed by PERS employer at the time of death,
- member died within 120 days after termination of PERS covered employment,
- member died as a result of injury sustained while employed in a PERS-covered job, or
- member was on an official leave of absence from a PERS-covered job at the time of death.

iii. **Disability Benefits.** A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

iv. **Benefit Changes After Retirement.** Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit

Notes to the Basic Financial Statements

fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

b. **OPSRP Pension Program (OPSRP DB).** The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

i. **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and Fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General Service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

ii. **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

iii. **Disability Benefits.** A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

iv. **Benefit Changes After Retirement.** Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

Contributions – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2021, actuarial valuation, which became effective July 1, 2023. The State of Oregon and certain schools, community colleges, and political subdivisions have made unfunded actuarial liability payments, and their rates have been reduced. Employer contributions for the year ended June 30, 2025, were \$5,904,880 excluding amounts to fund employer specific liabilities. In addition, approximately \$1,407,266 in employee contributions were paid or picked up by the City in fiscal 2025.

As of June 30, 2025, the City reported a net pension liability of \$36,631,103 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated

Notes to the Basic Financial Statements

December 31, 2022. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement date of June 30, 2024, the City's proportion was 0.16 percent.

The rates in effect for the year ended June 30, 2025, were:

- 1) Tier 1/Tier 2 – 25.87%
- 2) OPSRP general services – 22.66%
- 3) Tier 1/Tier 2 Police and Fire – 32.57%
- 4) OPSRP Police and Fire – 27.45%

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ 2,170,054	\$ 87,426
Changes in assumptions	3,682,903	4,718
Net difference between projected and actual earnings on pension plan investments	2,327,099	-
Net changes in proportionate share	145,432	4,992,030
Difference between the City contributions and proportionate share of contributions	<u>967,116</u>	<u>1,581,160</u>
Subtotal - Amortized Deferrals (below)	9,292,604	6,665,334
City Contributions subsequent to measurement date	<u>5,900,652</u>	<u>-</u>
Net Deferred outflow (inflow) of resources	<u>\$ 15,193,256</u>	<u>\$ 6,665,334</u>

The amount of contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2025.

Amounts reported as deferred outflows or inflow of resources related to pension will be recognized in pension expense as follows:

Year ending June 30,	Amount
2026	\$ (1,537,361)
2027	2,595,571
2028	1,059,914
2029	467,705
2030	41,441
Total	<u>\$ 2,627,270</u>

Actuarial Valuations – The employer contribution rates effective July 1, 2023 through June 30, 2025, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which

Notes to the Basic Financial Statements

are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

Valuation date	December 31, 2022
Measurement date	June 30, 2024
Experience Study	2022, published July 24, 2023
Actuarial cost method	Entry age normal

Mortality	<p>Healthy retirees and beneficiaries: Pub-2010 Healthy Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.</p> <p>Active Member: Pub-2010 Employees, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.</p> <p>Disable retirees: Pub-2010 Disabled Retirees, sex-distinct, generation with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.</p>

Notes to the Basic Financial Statements

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Methods and Assumptions:

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years.

The method and assumptions shown are based on a 2022 Experience Study.

Asset Class	Target Allocation
Cash	0.0%
Debt Securities	25.0%
Public Equity	27.5%
Private Equity	20.0%
Real Estate	12.5%
Real Assets	7.5%
Diversifying Strategies	7.5%
Opportunity ¹	0.0%
Total	<u>100.0%</u>

¹Opportunity has no strategic target as investments are only pursued on an opportunistic or episodic basis.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table on the following page shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Notes to the Basic Financial Statements

<u>Long-Term Expected Rate of Return</u> ¹				
Asset Class	Target Allocation	Annual Arithmetic Return ²	20-Year Annualized Geometric Mean	Annual Standard Deviation
Global Equity	27.50 %	8.57 %	7.07 %	17.99 %
Private Equity	25.50	12.89	8.83	30.00
Core Fixed Income	25.00	4.59	4.50	4.22
Real Estate	12.25	6.90	5.83	15.13
Master Limited Partnerships	0.75	9.41	6.02	27.04
Infrastructure	1.50	7.88	6.51	17.11
Hedge Fund of Funds - Multistrategy	1.25	6.81	6.27	9.04
Hedge Fund Equity - Hedge	0.63	7.39	6.48	12.04
Hedge Fund - Macro	5.62	5.44	4.83	7.49
Assumed Inflation - Mean			2.35 %	1.41 %

¹ Based on the OIC Statement of Investment Objectives and Policy Framework for the Oregon Public Employees Retirement Fund, including revisions adopted at the OIC meeting on January 25, 2023.

² The arithmetic mean is a component that goes into calculating the geometric mean. Expected rates of return are presented using the geometric mean, which the Board uses in setting the discount rate.

Discount Rate – The discount rate used to measure the total pension liability was 6.9 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the City’s proportionate share of the net pension liability calculated using the discount rate of 6.9 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.9 percent) or 1-percentage-point higher (7.9 percent) than the current rate.

	Decrease (5.9%)	Rate (6.9%)	Increase (7.9%)
City's proportionate share of the net pension liability	\$ 57,784,077	\$ 36,631,103	\$ 18,914,453

Deferred Compensation Plan

A deferred compensation plan is available to employees wherein they may execute an individual agreement with the City for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are; termination by reason of death, disability, resignation, or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets or liabilities of the City.

Notes to the Basic Financial Statements

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the City are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS and is administered by the OPERS Board.

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

PERS has a mandatory retirement contribution from employees. However, the City pays six (6) percent of their covered payroll as a money-saving concession that was negotiated in collective bargaining agreements. The City did not make any optional contributions to member IAP accounts for the year ended June 30, 2025.

E. Service Concession Agreement

The City of Ashland contracts with Skinner Aviation to operate the City owned airport. Skinner Aviation has been the airport's Fixed Base Operator since 1993 and is responsible for all oversight of the airport facilities including radio control, fuel facility, aircraft maintenance, hangar rental collection, flight training and facility maintenance. They collect the income for the City and remit the City's revenue on a monthly basis. They keep 25% of the monthly revenue and receive credit for Water and Garbage services. No upfront monies were exchanged by either party when the contract was executed, so thus there is not an asset or liability to recognize in the financial statements.

Notes to the Basic Financial Statements

F. Tax Abatements

As of June 30, 2025, City of Ashland provides tax abatements through one significant program: Enterprise Zone.

Enterprise Zone (ORS 285C.175):

The Oregon Enterprise Zone program is a State of Oregon economic development program, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor.

The Enterprise Zone program allows industrial firms that will make a substantial new capital investment, a waiver of 100% of the amount of real property taxes attributable to the new investment for a five-year period after completion. Land, existing machinery, or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

For the fiscal year ended June 30, 2025, City of Ashland abated property taxes under this program were \$52,758.

G. Contingency

The City is involved in various claims and legal matters relating to its operations which have all been tended to and are either being adjusted by the City's liability carrier or are being defended by attorneys retained by the City's liability carrier. The status of these matters is uncertain at this time. Any potential loss is also uncertain.

H. Leases

The City is a lessor for the noncancellable lease of office and building space with lease terms through 2026. For the year ending June 30, 2025, the City recognized \$173,564 in lease revenue in released from Deferred Inflows of Resources related to the office lease on the Statement of Changes in Net Position. The City recognized interest revenue of \$0 for the year ending June 30, 2025. No inflows of resources were recognized in the year related to termination penalties or residual value guarantees during the fiscal year. The balance of the governmental activities lease receivable was \$172,530 as of June 30, 2025.

*The variance with budget is due to an accounting correction for moving budgeted beginning fund balance to a new fund, and is not a budgetary violation per ORS.

Required Supplementary Information

Notes To Required Supplementary Information

Changes to Actuarial Assumptions – OPEB (Single Employer Plan). The fiscal year 2025 OPEB liability was determined by an actuarial valuation as of the July 1, 2024, valuation date, calculated based on the following discount rate and actuarial assumptions, and was then projected forward to the measurement date: Inflation - 2.40%, salary increases - 3.40%, discount rate - 3.93%. Withdrawal, retirement, and mortality rates were based on the December 31, 2023, Oregon PERS valuation. Election rates assumed that 100% of active members that are eligible for explicit benefits were assumed to receive those benefits and 45% of all other eligible employees. 60% of male members and 35% of female members will elect spouse coverage. The lapse rate was 5%. The actuarial cost method assumes the entry age is normal.

Changes to actuarial assumptions – OPEB (PERS). The Retirement Health Insurance Account (RHIA) asset was determined by an actuarial valuation as of the December 31, 2022, date projected forward to the measurement date of June 30, 2024. The discount rate used was 6.90%, the inflation rate was 2.40%, and projected salary increases were 3.40%. All assumptions, methods and plan provisions used in the calculations are described in the Oregon PERS system wide GASB 75 reporting summary dated January 20, 2023, which can be found at [OPEB Plan Schedules of Employer Allocations and OPEB Amounts by Employer](#). Additional information on the actuarial assumptions is included in the 2022 Experience Study report, which reviewed experience for the four-year period ended on December 31, 2022.

Actuarial assumptions – Pension Liability (PERS). The total pension liability was determined by an actuarial valuation as of the December 31, 2022, date projected forward to the measurement date of June 30, 2024. The discount rate used was 6.90%, the inflation rate was 2.40%, and projected salary increases were 3.40%. All assumptions, methods and plan provisions used in the calculation are described in the Oregon PERS system wide GASB 68 reporting summary dated January 30, 2024, which can be found at [Cost-Sharing Multiple-Employer Defined Benefit Pension Plan Schedules of Employer Allocations and Pension Amounts by Employer](#). Additional information on the actuarial assumptions is included in the 2022 Experience Study report, which reviewed experience for the four-year period ended on December 31, 2022.

There are no assets accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the pension/OPEB plan.

See the Notes to the Financial Statements for other key assumptions and changes.

**AUDIT COMMENTS AND DISCLOSURES
REQUIRED BY STATE REGULATIONS**

Audit Comments and Disclosures Required by State Regulations

Oregon Administrative Rules 162-10-0000 through 162-10-0330, the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments, and disclosures required in audit reports. The required financial statements and schedules are set forth in preceding sections of this report. Required comments and disclosures related to the audit of such statements and schedules are set forth following.

Report of Independent Auditors Required by Oregon State Regulations

The Mayor and City Council
City of Ashland, Oregon

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon (the City) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City of Ashland, Oregon's basic financial statements, and have issued our report thereon dated November 26, 2025.

Compliance

As part of obtaining reasonable assurance about whether the City's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules (OAR) 162-010-0000 to 162-010-0330, of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to, the following:

- Accounting records and internal control
- Public fund deposits
- Indebtedness
- Budget
- Insurance and fidelity bonds
- Programs funded from outside sources
- Highway funds
- Investments
- Public contracts and purchasing

Audit Comments and Disclosures Required by State Regulations

In connection with our testing, nothing came to our attention that caused us to believe the City was not in substantial compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of ORS as specified in OAR 162-010-0000 through 162-010-0330 of the Minimum Standards for Audits of Oregon Municipal Corporations.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

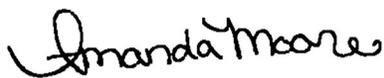

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the City Council members and management of the City and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

**GOVERNMENT AUDITING STANDARD
COMPLIANCE REPORT**

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Mayor and City Council
City of Ashland, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon (the City) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City of Ashland, Oregon's basic financial statements, and have issued our report thereon dated November 26, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Government Auditing Standard Compliance Report

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
