

# Smart Controller Rebate Program Eligibility & Conditions

## Applicant Eligibility:

- Rebates are for City of Ashland residential customers who have a water account with the City. Commercial applications will be considered on a case-by-case basis.
- Applicants must schedule an irrigation evaluation to determine eligibility for a rebate. If major improvements to the irrigation system or the landscape are needed, they must be completed before the rebate is issued. Approval is at the discretion of conservation staff.
- Rebate applied only to the installation of WaterSense-certified smart irrigation controllers. Eligible models are identified with a WaterSense label. Verify eligibility by reviewing the list of qualifying controllers and additional required equipment on the EPA website.
  - [WaterSense Product Search - Weather-Based Irrigation Controllers | US EPA](#)
- Additional equipment, such as a weather station, may be required for the controller to qualify. Please visit the website listed above to confirm you have all the mandatory equipment installed.
- Renters who assume the responsibility of paying the water bill are eligible for a rebate. The renter must obtain a permission form signed by the property owner to receive the rebate.

## Terms & Conditions:

- The new smart controller must be inspected by conservation staff before the rebate is issued. The controller must be properly programmed and functioning.
- Rebate will only be given for the replacement of an existing standard irrigation controller or the installation of a new smart irrigation controller where a controller did not exist.
- Product must be purchased within 180 days of submitting the rebate application.
- Submit application to the City of Ashland Water Conservation Division on our website, email, mail, or by delivery to our office.
- Rebates are offered on a first come first serve basis and are subject to available funds. Future funding will depend on the adopted conservation budget.

## Rebate Amount:

- Up to **\$200 total** WaterSense-labeled smart irrigation controller for **residential use**.
- Up to **\$250 total** for a WaterSense-labeled smart irrigation controller for **commercial/HOA use**.
